

Health Plan Solutions Overview

for Achieving Explosive Medicare Growth in 2021

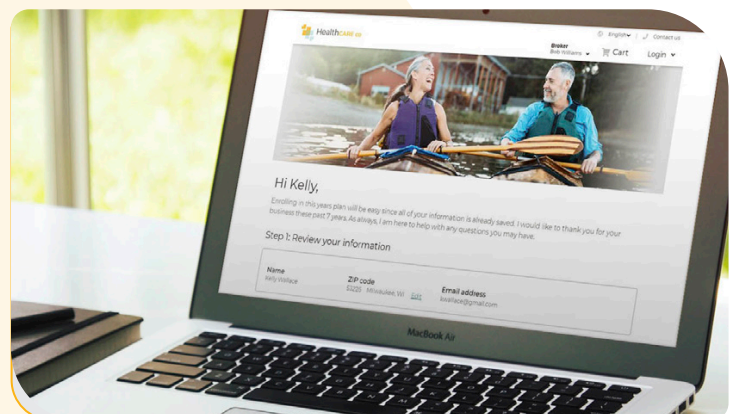

Solutions, Service and Technology Overview:

- ConnectureDRX is more than just a Shopping, Quoting and Enrollment platform
- 20 years of experience
- Drug pricing experts
- Our solutions directly and positively impact:
 - Member engagement
 - Compliance
 - Drug pricing transparency
 - Disenrollment
 - Star Ratings

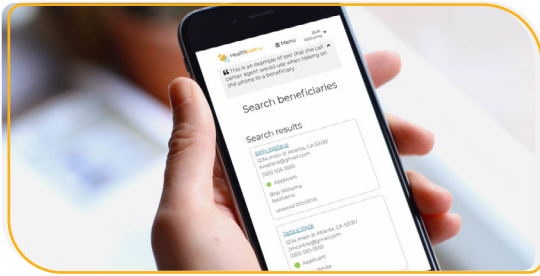

BrokerLink - Be part of the largest Medicare network in the industry and get maximum plan visibility at all times. BrokerLink digitally connects health plans, FMOs, agents and consumers offering extraordinary opportunities to increase enrollments and grow revenue: everyone benefits.

PlanCompare ONE - ConnectureDRX's innovative Best Fit Plan Technology is the foundation for providing the most accurate drug pricing and reliable out-of-pocket estimates for all Medicare plan types (MA, MAPD, PDP and MedSupp) on one PlanCompare ONE platform for use on any device from anywhere. Includes a seamless front- and back-end digital experience, self-service enrollment capabilities and much more.

Health Plan Solutions Overview

Medicare Retention Suite – Target at-risk members who may be browsing other Medicare plans and stay ahead of potential plan switching. Keep new retirees transitioning from commercial insurance loyal to your brand. Keep your brokers happy when you show them how to retain beneficiaries year-over-year with an optimal shopping experience. Medicare Retention Suite offers your members a seamless shopping experience, including ALL COST estimates and PERSONALIZED messaging.

DatabaseRX for health plans and DrugCompare for

member self-service - Improve medication adherence and watch Star Ratings rise using these solutions independently or in tandem. Proactively connect members to lower-cost therapeutic alternatives when armed with the right member Rx data. Both solutions leverage ConnectureDRX's extensive repository of evidence-based therapeutic interchange options. When members can afford their medications they follow prescribed treatment regimens and improve health outcomes.

PlanSmart - When plan switchers are a concern leverage Plansmart to identify at-risk members. Provide ConnectureDRX with your member claim data. We will compare your data to our database of Medicare products to identify your at-risk members. With this data, you can create more targeted member outreach to increase retention.
