FAQs

Carriers

Q. How do I find out which carriers are available on the platform?

A. Our carrier list is available on our AGENTS page at connecture.com/agents. We will update this list as we add more carriers.

Once you have subscribed, via our "All Plans View" feature on the platform you will be able to shop for MA, MedSupp, PDP and ancillary plans for more than 150 carriers.

We anticipate having 25-30 plans with full enrollment capabilities at launch. We're continuously adding new carriers to our platform each week. This network will keep expanding through AEP and beyond.
